

## INFERTILITY WITHOUT BORDERS: FIRST INTERNATIONAL CONFERENCE ON INFERTILITY AWARENESS

### A WORLD PREMIERE

---

On September 7th 2015, will be held *Infertility without Borders*, the First International Conference on Infertility Awareness. The event will bring together representatives of patient groups from across the globe, healthcare professionals and local policy-makers. The aim of the conference is to raise public awareness on the issue of medical infertility and all the social and economic questions it raises. With its participatory formula, the conference will encourage speakers and guests to share their experience and promote their activities. Through this discussion, the organizers of the event hope to help patient groups and healthcare professionals find new ways of engaging their respective governments and position infertility as an important public health matter.

Join us on,  
7th September 2015  
Registration will begin at 8.30 AM  
At la Maison du developement durable de Montréal  
Located at 50, Saint-Catherine st. West
